How to Add the Library’s APA Tutorial to your Blackboard Course
To enter the library’s APA tutorial in Blackboard, all you need is the tutorial LTI link. By embedding this link, you can see in your gradebook how your students fared on the quizzes.

Here is the LTI link:
https://www.softchalkcloud.com/scorecenter/lti/udyjbiXhlSJEcg3
In your Blackboard Build Content menu, select Web Link.
Enter the name of the tutorial.

Check the box to enable the tool provider and select the Yes button to enable evaluation.
Enter 100 in the possible points box. The rest of the settings are at your discretion.
When you and your students click on the link, a score center for the module will appear. Before you have the students take the tutorial, go to the Change Grading Method tab and change the setting to Higher Score. You and your students can start the lesson by clicking the View Lesson button on the top right.
The tutorial will automatically appear in the grade book columns in your course. You can then adjust any grade weighting as you see fit.
