Below is a list of essential library resources and services available to faculty. Further Information about these resources can be found by clicking on the faculty services link on the library website.

**Information Literacy and Research Instruction**
OLLU Librarians provide customized information literacy and research instruction in face-to-face and online formats for all courses in San Antonio, Houston, and RGV. Sessions cover topics from general library orientation to assignment-specific instruction. Library instruction can help your students:

- Identify, find, and evaluate scholarly and non-scholarly information sources
- Effectively use academic research tools and databases
- Formulate effective search strategies
- Develop an appropriate research question
- Understand plagiarism and proper attribution of sources

Faculty can request library instruction using the [online form](#).

**Collection Development**
The library is committed to ensuring a strong collection of academic materials and resources to support the curriculum of OLLU’s academic programs. Faculty can submit requests for materials using the [online form](#).

**Course Reserves**
Library course reserves are supplementary materials for a course that are made available to students in the library. Reserve materials may be books, videos, articles, software, maps, pamphlets, etc.; and may be in print or digital format. Visit the library [website](#) to learn more about course reserves and to submit a reserve request online.

**Faculty Resources**
Visit the [Faculty Resources](#) page on the library website for access to databases and online journals geared toward faculty such as the *Chronicle of Higher Education* and Ulrich’s Serials Directory.

**Open Educational Resources (OER)**
Use the library’s [online guide](#) for helpful information related to Open Educational Resources.
